- “A job well done.”

The OSU College of Dentistry academic programs are accredited by the American Dental Association (ADA) through their Commission on Dental Accreditation (CODA). Approximately every seven years, programs must be re-accredited. This re-accreditation process requires the academic programs to complete a specified self-study process and submit written documentation of this activity to CODA. After the self-study has been completed, representatives from CODA make a site visit to the academic program.

On February 26-28, 2013, representatives from CODA will be site visiting the following academic programs of the OSU College of Dentistry:

- predoctoral dental education program
- allied education program in dental hygiene
- advanced education programs
  - endodontics
  - general practice residency
  - oral & maxillofacial pathology
  - orthodontics & dentofacial orthopedics
  - pediatric dentistry
  - periodontics
  - prosthodontics

The above programs will be submitting their self-study documentation to CODA in December, 2012.

The Commission on Dental Accreditation will review complaints that relate to a program’s compliance with the accreditation standards. A copy of the appropriate accreditation standards and/or the Commission’s policy and procedure for submission of complaints may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611-2678 or by calling 1-800-621-8099.

But for Ohio State…
Nisonger Center serves citizens with disabilities

Timothy Fallowell, DMD, now leads the Intellectual and Developmental Disability (IDD) Dental Program at Ohio State’s Nisonger Center, which provides a complete range of oral health services to children and adults with developmental disabilities and other special needs.

The Nisonger Center’s dental program is the largest provider of oral health services for adults with developmental disabilities in Franklin County.

“Tim will provide vision and leadership for the dental program, including the McCampbell Hall and Johnstown Road clinics, and the teaching and training of the Ohio State dental students, residents and fellows, and the dental hygiene students,” says Marc Tasse, PhD, director of the Nisonger Center.

The dental program is just one way the Nisonger Center, a University Center for Excellence in Developmental Disabilities, serves Ohioans with disabilities. For almost 50 years, the Nisonger Center has provided assistance to people with disabilities, families, service providers and organizations by promoting inclusion of people with disabilities in education, health, employment and community settings.

Recently, the Nisonger Center and the Ohio Department of Health received a $900,000 grant from the Centers for Disease Control and Prevention to work through a partnership to promote health, prevent chronic disease and increase quality of life for Ohioans with disabilities. This is the third year of Cincinnati Children’s Hospital Medical Center’s grant to the Nisonger Center, which is providing services in Cincinnati, Columbus and Dayton.

“The Ohio IDDD initiative is an exciting partnership between state agencies with a vision that all Ohioans will be healthier and achieve their full potential, no matter which disability they may have,” says Eve Faust-Guyer, vice president of the Nisonger Center.

Awards of Excellence

Achievement Award: Dr. Dennis McTigue

For nearly 40 years Dr. Dennis McTigue has given back to the community by helping patients in need and by educating future dentists. On Friday, Sept. 14, 2012, Dr. McTigue will receive the Ohio Dental Association Achievement Award for his contributions to this year’s Celebration of Excellence, held in conjunction with the 149th ODA Annual Session in Columbus, Ohio.

Awards of Excellence

Achievement Award: Dr. Dominic Bitonte

Theodore of the Carmony Family Dental Society, “he has not only attained the highest standards of his profession, but he also gives back to his community in a more than equal measure. Here is a professional as well as a dedicated philanthropist. His professional conduct, his leadership, his respect for dentistry and his personal ethics are demonstrable.”

Dr. Bitonte said he was honored to receive the Achievement Award, “I feel it’s a great honor that my peers have selected me,” he said.

Dr. Bitonte has been extremely helpful to the community and is a dedicated community commitment to education. On April 10, 2012, Dr. Bitonte will receive the Achievement Award for his contributions to the Celebration of Excellence, held in conjunction with the 149th ODA Annual Session in Columbus. Ohio.

Stay Informed

Dear Colleagues,

I am pleased to announce the launch of our new website for the College of Dentistry. The site, dent.osu.edu, has been designed to provide timely and accurate information about the College and its programs. We hope that you will find the site easy to navigate and informative.

Some of the key features of the site include:

- A comprehensive list of faculty and staff
- A calendar of upcoming events
- Information about the College's research initiatives
- A directory of student resources
- Links to other relevant websites

We encourage you to visit the site and explore all that it has to offer. If you have any questions or feedback, please feel free to contact us.

Thank you for your support of the College of Dentistry.

Best regards,
