ADA 2015 kicks off with Opening General Session and Distinguished Speaker Series

BY JENNIFER GARVIN

Washington — For the first time in two decades, the nation’s capital hosted the Association’s annual meeting.

“I can’t imagine a better place for us to gather,” said then-ADA President Maxine Feinberg as she welcomed attendees Thursday to the Walter E. Washington Convention Center during the Opening General Session and Distinguished Speaker Series, the official kick-off of ADA 2015 — America’s Dental Meeting.

“We make a powerful statement here in Washington, D.C., and across the country when we come together,” said Dr. Feinberg.

“We show that we are united.”

Presenting the 2015 Distinguished Speaker Series was Church & Dwight, makers of ARM & HAMMER, Spinbrush and ORAJEL oral care products. Representing the company was Tim Seitter, vice president, Oral Care Business, who introduced the event’s speakers, political columnists Eleanor Clift of the Daily Beast and Charles Krauthammer, M.D.

The morning program included remarks by Dr. Carol Gomez Summerhays, then-ADA president-elect, and presentations of the 2015 Humanitarian Award to Dr. Francis Serio and the Gold Medal for Dental Excellence in Dental Research to Dr. Steven Offenbacher.

The unity theme continued with Dr. Summerhays, a native Californian, who compared the strengths of organized dentistry with her state’s beloved redwoods. Like those trees, she said, the profession thrives from “its strong network of mutual support.”

“Together we’re going to keep American dentistry the gold standard for the world.”

Dr. Serio, the Humanitarian Award recipient, was honored for more than three decades of service, including founding the
Throughout the past year, The Ohio State University College of Dentistry has been celebrating its 125th anniversary.

The anniversary celebration kicked off with a panel discussion in mid-January that featured seven OSU College of Dentistry graduates who spoke about how dentistry, dental education and the college have changed since they graduated. The panelists’ experiences spanned nearly 50 years, and included then-ODA president Dr. Tom Paumier as well as other ODA members.

“The Ohio State University’s College of Dentistry’s 125th anniversary celebration is a great reminder of the long legacy of achievement so many of their alumni and faculty have been recognized for locally, nationally and internationally,” Paumier said. “Listening to comments from alumni of the dental and hygiene schools over the last 60 years at the kickoff ‘Then and Now’ event demonstrated the long history of excellence and constant improvements in the educational experience for students. This has ensured Ohio State graduates are well prepared to meet the oral health needs of the patients they serve.”

The OSU College of Dentistry has also hosted more than 15 alumni receptions throughout the year to celebrate the anniversary. Receptions have taken place throughout Ohio, at the ODA Annual Session and at dental specialty meetings and other locations across the country.

“With nearly 11,000 alumni scattered far and wide, we needed a full year to reach out,” said OSU College of Dentistry Dean Patrick Lloyd.

The OSU College of Dentistry has a long history of making an impact across the nation.
ODA Foundation scholarship recipients aim to improve access to care in Ohio

The ODA Foundation awarded $73,000 in scholarships to 36 dental students. "We are well aware of the tremendous debt load that our dental school colleagues bear," said Dr. Kim Gardner, chair of the ODA Foundation. "Due to the generosity of ODA member dentists, we are able to help defray a portion of the debt of these future ODA members. It is our privilege to help where we can."

Scholarships were awarded to 26 students at The Ohio State University College of Dentistry, nine students at the Case Western Reserve University School of Dental Medicine and one student at the University of Louisville School of Dentistry. "The ODAF scholarship is really important to me," said Britni Skoda, a dental

The ODA Foundation awarded scholarships to 36 dental students to help defray the cost of dental education.
“Even today, some people think tooth loss is a normal part of getting old, though it doesn’t have to be,” Lloyd said.
