President-elect campaign statements

Terry L. Buckenheimer, D.M.D.
Joseph Crowley, D.D.S.
Julian Hal Fair III, D.M.D.

Like you, I am proud to be a dentist and especially proud to be a member of the American Dental Association. That statement has been true for 40 years, when I first entered the University of Pittsburgh’s College of Dental Medicine. Serving as treasurer of my dental class and American Student Dental Association chapter, little did I realize that choice would lead me to a lifetime of involvement in organized dentistry. I moved to Tampa Florida, accepting a

I am running for ADA president-elect because I am passionate about our esteemed profession and I want to help pave the way to a bright future for the next generation of dentists. Like most of you, I have been a member of the ADA for my entire career. As a practicing general dentist for 40 years, organized dentistry has been a major part of my life from the “golden years of dentistry” to today’s current environment.

Every day, as dentists we have a chance to do something great—to not only change our patients’ smiles, but for some, to also change their quality of life.

It’s the very reason that you and I are in a profession that holds a special position of trust in our society. What we do is much more than science, much more than a set of dental codes sent to insurance companies. We are part of a 150-year legacy of a strong code of ethics that serve as our guiding principles.

Constant construction

OSU stresses planning as $1B-plus spent for new buildings, renovations

By Mary Megan Edwards
The Columbus Dispatch

If it seems as if they're always building something at Ohio State University, it's not your imagination. They are.

For a campus with more than 400 buildings and 30 million square feet of indoor space, Ohio State has spent about $8 billion on construction, counting new buildings and renovations, in most years. The past decade has ramped from $710 million in the current fiscal year:

Pomerene Hall is being renovated as part of a Big Ten initiative.

The team meets with legislators and organizes dentists to meet with their local legislators to educate them about dentistry and oral health care.
Case Western and Ohio State’s College of Dentistry have made a major impact on the profession of dentistry …

The School Receives the Prestigious Callahan Memorial Award

The Case Western Reserve School of Dental Medicine and The Ohio State University College of Dentistry have made a major impact on the profession of dentistry throughout their history. For their contributions, both institutions received the Callahan Memorial Award from the Ohio Dental Association on September 16 at the ODAs 150th Anniversary Gala and Award Celebration, held in conjunction with the 150th ODA Annual Session.

“As the ODA celebrates its 150th anniversary, the Callahan Memorial Award Commission wanted to join in the celebration by honoring both Ohio dental schools with the Callahan Memorial Award,” said Dr. Joseph Mellion, chairman of the Callahan Memorial Award Commission. “Both schools embody what the Callahan Memorial Award is about – providing profound and impacting.
Past ODA editor Dr. Donald Bowers passes away

By ODA Staff

Dr. Donald Bowers, a past editor at the Ohio Dental Association, passed away at age 81 on Dec. 14, 2016, according to an obituary on www.legacy.com. Bowers graduated from the OSU College of Dentistry as a member of Alpha Epsilon Delta honor society. Following eight years in the U.S. Army Medical Corps, he completed post-graduate training at Indiana University School of Dentistry and became a pediatric dentist.

He was a faculty member at the OSU and IU dental schools as a pediatric dentist, and served as pediatric dental director at Children’s Hospital in Columbus. From 1968 to 1973 he served as a professor of pediatric dentistry and chairman of the Department of Pediatric Dentistry at the Medical College of Georgia School of Dentistry. In 1973 he returned to the OSU College of Dentistry where he served the
