Faculty Candidate Presentations

Please join our faculty candidate, John D. Bartlett, PhD, for two all-school presentations:

**Date:** Monday, April 20, 2015

**Location:** Room 1188

**Time:**
- 11:45 a.m. – 12:30 p.m.
  "Opportunities and Challenges for Research in Colleges of Dentistry"
- 4:45 – 5:45 p.m.
  "MMP20 in Enamel Development & Cell Stress in Dental Fluorosis"

Dr. Bartlett earned a B.A. degree in biology and psychology from Ohio Wesleyan University (1979), followed by an M.S. in microbiology from the University of New Hampshire (1984), and a PhD in cell and molecular biology from the University of Vermont (1990). His career has included post-doctoral fellow appointments at the National Institutes of Health/National Institute on Aging, and at Harvard University Medical School. He also has served as an associate professor in the Department of Developmental Biology at Harvard University School of Dental Medicine, and he is currently the chair of the Department of Mineralized Tissue Biology at the Forsyth Institute in Cambridge, Massachusetts.

Dr. Bartlett’s research focuses on understanding dental enamel development, and the gene expression program that is required to form teeth. He has a particular interest in a gene called “matrix metalloproteinase-20” (MMP20), and he also is investigating the molecular events that cause dental fluorosis and the cellular interactions that are required for healthy enamel formation.

All faculty, staff, and students are encouraged to attend.

Light refreshments will be served.
The Goals of Faculty Recruitment

• Recruit **world class** faculty into our ranks
• **Engage** students, staff and faculty in the processes of the college

Mallery bestowed Distinguished Alumni Award

Susan Mallery was honored with the Professional Achievement Award by The Ohio State University Alumni Association. She is a life-long Buckeye who earned four degrees from Ohio State — bachelor’s in zoology, master’s in physical education and doctorates in dental surgery and pathology — and then settled into a successful career as a stellar faculty member at her alma mater.

As a professor in the College of Dentistry, she has excelled as an educator and role model for students. She received several instructor and teaching awards and, in 1999, became the first recipient of the Field Faculty Award recognizing excellence in teaching and research. Mallery also serves as an oral pathology consultant and researcher at The Ohio State University Comprehensive Cancer Center – Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, where she has dedicated more than 30 years to researching and studying new strategies to prevent oral cancer.

“Dr. Patrick Lloyd, dean at the Ohio State dental school notes, ‘I was attracted to Iowa back in 1996 for a host of reasons, the most significant of which was to work alongside people who had a reputation for accomplishing great things …’ ”
“It was interesting to learn of the College of Dentistry’s commendable Health Outreach Mobile Experience (HOME) Coach program featured in the May-June 2015 magazine.”
Unanimous
Ohio State becomes first team to receive every No. 1 vote in Associated Press preseason football poll

By Tim May • THE COLUMBUS DISPATCH

Ohio State was named the unanimous No. 1 in the Associated Press preseason poll released on Sunday. It's the first time that has happened in the history of the preseason vote, which started in 1950.

In the coaches poll, the Buckeyes received 62 of the 64 first-place votes. Texas Christian and Alabama drew one each.

But all 61 media voters in the AP poll picked Ohio State.

The rest of the top 10 is No. 2 TCU, No. 3 Alabama, No. 4 Baylor, No. 5 Michigan State, No. 6 Auburn, No. 7 Oregon, No. 8 Southern California, No. 9 Oregon and No. 10 Florida State.
