Give Kids A Smile Ohio kickoff events bring together children, volunteers and local leaders

By ODA Staff

The Ohio Dental Association hosted Give Kids A Smile Ohio kickoff events at two locations this year in honor of the event’s 15th anniversary. The first event was at the Dental Center of Northwest Ohio in Perrysville on Feb. 26, and a second event was at The Ohio State University College of Dentistry on Feb. 24.

The first kickoff event at the Dental Center of Northwest Ohio’s Van Wert Smiles connected children from Northwest Ohio without dental insurance coverage with student dental team members. Volunteers provided preventive dental services, and volunteer dentists eliminated dental pain through tooth extractions and fillings. Volunteers provided 47 children with free dental care.

“This was great because they took out each tooth that hurt them every day and was causing them to be missing class the time to see the school nurse,” said Chili Doan of Van Wert, whose two grandsons attended the event.

Give Kids A Smile is a national collaborative effort to provide dental care and oral health education to children without dental insurance coverage. The event was the first to be held in Van Wert.

“I am really proud to have the statewide Give Kids A Smile kickoff event here in Van Wert during my year as the Ohio Dental Association’s president,” said ODA President Dr. Kevin Laing of Van Wert. “I appreciate all of the volunteers giving their time and talent to provide valuable dental care to the kids in our community. Dentistry is truly a caring profession.”

Ohio Dental Association President Dr. Kevin Laing of Van Wert performs an oral exam at the Van Wert Smiles clinic for the Give Kids A Smile event. Volunteers provided a total of $20,000 in donated dental services at the event.

During the event, local leaders and Ohio policymakers, including Sen. Cliff Hite (R-Findlay) and Rep. Craig Riedel (R-Defiance), toured the Van Wert Smiles dental center and spoke with Laing and ODA President-Elect Dr. Joe Crowley, a dentist from Ohio, about the importance of oral health and the need for proper funding of safety-net dental clinics and Medicaid.

OSU ASDA chapter, student win Gold Crown Awards

The Ohio State University College of Dentistry American Student Dental Association chapter won ASDA Gold Crown Awards for Fundraising and for Most Creative Application. The Gold Crown Chapter Achievement Awards honor outstanding accomplishments by ASDA chapters in serving members.

OSU dental student Jimmy Zimmerman won the ASDA Gold Crown Award for District 6 Delegate of the Year. ASDA recognizes the significant accomplishments and commitment of its delegates by awarding one from each district a Delegate of the Year Award.

Graduating dental students sign up for tripartite membership

This year, 118 graduating dental students signed up for organized dentistry through National Signing Day events at the Case Western Reserve University School of Dental Medicine and The Ohio State University College of Dentistry.

The ADA’s National Signing Day program aims to increase visibility and awareness of membership in organized dentistry and to encourage new dentists to sign up for membership in the ADA, Ohio Dental Association and their local component societies.

The Columbus Dental Society supported the 2017 National Signing Day at the OSU College of Dentistry on Feb. 17 and 24. At the event, 81 students submitted membership applications, which is about 71 percent of the 2017 graduating class.

At the CWRU School of Dental Medicine, the Greater Cleveland Dental Society supported the 2017 National Signing Day on March 31. At the event, 37 students submitted membership applications, which is about 50 percent of the 2017 graduating class.

Once these students receive their licenses, they will be transitioned into active membership.

These new members will be part of the Reduced Dues Program, which reduces membership fees by 100 percent during their first year after dental school, 75 percent during their second year, 50 percent during their third year and 25 percent during their fourth year.

Being a member of organized dentistry is one of the best ways to exert influence
