Commitment to Access Resources & Education: CARE Program

- Created to help increase access to oral health care for all Ohioans
- Recruits students from Ohio’s underserved communities and federally-designated HPSAs
- Students most likely to practice in those areas after graduation
- Up to 10 qualified Ohio applicants admitted each year
- Begins with the Class of 2022
CARE Program Students

Top, (l-r): Patrick Haren; William Vu; Fuad Farah; Brandon Whitecotton; John Savopolous
Bottom, (l-r): Rachel Salen; Brandi Lantz; Eli Strahler (not pictured)
Give Kids a Smile Event: September 15

- 175 DDS student volunteers
- 11 DH student volunteers
- 35 faculty/resident volunteers
- 77 children received dental care
- $23,816 in private practice fees
- **Faculty advisor:** Erin Gross, DDS, PhD, MS
- **Student Coordinator:** Petr Vaughan, D3
Resident Wins Top Prize at ODA Table Clinic Competition

Joseph Depalo, DDS
• Division of Pediatric Dentistry
• First-place prize: “Using silver diamine fluoride to arrest interproximal dental caries”
Resident Wins First-Place Prize: Tylman Research Award

Ryan Mizumoto, DMD
- Advanced Education Program in Prosthodontics
- Project: “The accuracy of different digital impression techniques and scan bodies for complete-arch implant-supported reconstructions”
- Adviser: Burak Yilmaz, DDS, PhD
Student is Albert Schweitzer Fellow

Vanessa Short, D3
- Columbus-Athens Schweitzer Fellows Program
- Program develops emerging professionals with skills to address unmet health-related needs

2018-19 Columbus-Athens Schweitzer Fellows
Dentistry Wins Top Prize – Homecoming Float Competition

Top prize won four consecutive years!

New Graphic Designer Joins College

Alyson Howard, BFA
Start date: May 3

- Formerly, graphic design specialist at Southern Ohio Medical Center, Portsmouth, Ohio
- Produces print and digital design products that supports the college’s activities and initiatives
New Development Director Joins College

Lia Kampman, BA, MA
Start date: July 23

• Formerly, associate director of advancement and campaign director; Wartburg College, Waverly, Iowa
• Develops relationships with alumni and other constituents to secure major gifts
Credentialing Specialist Joins College

Laura Marado, BS
Start date: September 10

• Formerly, provided credentialing services for MediGold/Mount Carmel Health Systems
• Manages all aspects of credentialing for the college’s oral health care providers
New Faculty Member is Assistant Dean for Admissions

Pamella Shaw, DMD, MPH
Start date: July 1
• Graduate, University of Kentucky College of Dentistry and College of Public Health
• Formerly served as Associate Dean in the Office of Diversity, Equity, and Inclusion, Indiana University
Daniel Cortes, DDS, MS
Start date: July 30
• Assistant Professor-Clinical, Division of Restorative Science and Prosthodontics
• Graduate, University of Michigan Advanced Education Program in Prosthodontics
New Faculty Member Joins Pediatric Dentistry

Ehsan Nasr Azadani, DDS
Start date: October 1
• Assistant Professor, Division of Pediatric Dentistry
• Joint appointment: Nationwide Children’s Hospital
Faculty/Senior Searches

- Pediatric Dentist, tenure track (1)
- Pediatric Dentistry Graduate Program Director (1)
- General Dentist (2)
- Prosthodontist (1)
- Endodontist (1)
- Dentist Anesthesiologist (1)
- Director, Dental Oncology Clinic (1)
- Director, General Practice Residency (1)
- Director, Dental Hygiene Clinic (1)
Merger of Two Divisions

- Division of General Practice and Materials Science
- Division of Restorative Science and Prosthodontics

Section of Postle Hall separated, demolished and removed from site
Goals for New Facility:

- Capitalize on new technologies in dental education and patient care
- Increase patient access to the clinics
- Create greater visibility of our profession on campus
- Enhance recruitment of students, staff, and faculty
- Improve clinical operations’ efficiency and patients’ privacy
- Increase revenues from clinics and facilities
- Expand opportunities to support patients referred from Ohio State’s Wexner Medical Center

OSU Launches CARE Program

Columbus Dental Society’s “Voice” Magazine Features CARE Program

2-page article on the innovative Commitment to Access Resources and Education (CARE) Program
$95M OVERHAUL OF POSTLE HALL BEGINNING TO TAKE SHAPE

Postle Hall, home to Ohio State University's college of dentistry, is in the beginning phases of a $95 million makeover — one that is expected to last into 2020.

The wait will be worth it, said Patrick Lloyd, dean of the college.

“This new facility will allow us to be a greater resource for the state, creating greater access for students and clients,” he told me.

In the country, OSU's college of dentistry is the fourth-largest and the only state-level dental school in Ohio. Sixty-two percent of Ohio's dentists come from Ohio State, which offers degrees in dental hygiene, doctor of dental surgeries and dental specialties like orthodontics.

The renovation, Lloyd said, will allow the school to become more of an asset for people outside the university, too. Aside from classroom and office space, Postle Hall includes a dental clinic that sees 460 patients a day, some on government-funded health plans and some with private insurance. The clinic also sees a large number of patients coming from The James — many are cancer patients in need of work due to chemotherapy.

That all “wears and tears” on a building built in the 1950s, with the last update back in 1972, Lloyd said. Ohio State needs a more modern facility, and that's where the makeover comes in.

The dental hub at 305 W. 12th Ave., on the corner with Neil Avenue, received $26 million in state subsidies for the overhaul in 2016. The remainder will come from the university, which is raising money, and alumni and corporate partnerships that are being firmed up, Lloyd said.

The four-story eastern part of the building will be demolished, and 150,000 square feet of new space will replace it. There will be new pre-clinical simulation and technology labs, eight small-group student practice clinics, four ambulatory surgery units, an expanded radiology center, three new classrooms and a new student commons.
Ohio State offers incentive to dental students to work in underserved areas

“The CARE program is designed to recruit dental students from underserved areas ... to help them improve access to dental care by getting them to practice in those areas after they graduate.”

“I believe that Ohioans should have access to the same level of educated oral health care practitioners, no matter where they live or what their economic status is,” Lloyd said.
“For the last 15 years, students from The Ohio State University College of Dentistry have helped staff the [community] clinic through the OHIO Project.”

“Forth-year dental students are required to work 50 days in various clinics throughout the state, focusing on underserved communities.”
“The CARE program recruits students from Ohio’s underserved communities and federally-designated Dental Professional Shortage Areas who are most likely to help improve access to dental care by establishing practices in those areas after graduation.”
Ohio dentist receives 2018 Gies Award

Dr. Canise Bean, clinical professor and Director of the Office of Community Education at The Ohio State University College of Dentistry, was selected as a recipient of the American Dental Education Association’s (ADEA) 2018 William J. Gies Award for Vision, Innovation, and Achievement.

The Gies Awards honor individuals and organizations that exemplify the highest standards in oral health and dental education, research and leadership.

Bean is committed to improving access to oral health care to those in need. At the College of Dentistry, she leads the Oral Health Improvement through Outreach (OHIO) Project, where fourth-year dental students spend 50 days providing care in community clinics throughout Ohio under the direct supervision of associated faculty.

ODA Executive Director David Owsiany commended Bean for her “commitment to dental education, professionalism and access to care.”
“ODA members, dental students, and staff meet with Rep. Jim Jordan at the ADA Dentist and Student Lobby Day in Washington, D.C.”
The Ohio State University
College of Dentistry

June 2018

Morgan McDermott, D2 (left) and Purnima Kumar, DDS, PhD Professor, Periodontology

“The ODA provides me with several opportunities to enhance my patient care, as well as get involved with community level initiatives. Serving on the ODA councils is another reason I love being a member of the ODA. I enjoy working with like-minded individuals who are united by a shared interest of wanting to make a difference in our patient’s lives and in advocating for dentistry and dentists. I love the camaraderie and the high level thinking, as well as the incredibly supportive staff, who are a storehouse of knowledge regarding policy and legislation.”

Purnima Kumar DDS, PhD
Periodontist
OSU College of Dentistry
How great teachers are made

THE 2018 ALUMNI AWARD FOR DISTINGUISHED TEACHING winners bring diverse backgrounds to classrooms across The Ohio State University. Their teaching styles have been shaped by overseas education, their childhoods and, of course, other teachers. We asked them: Who or what made you passionate about the profession and how do you act on that inspiration? — LAURA NEWPOFF

HIGH FIVES

Homa Amini ’93 DDS, ’96 MPH
Clinical Professor and Director of Advanced Education Program in Pediatric Dentistry, College of Dentistry

Ohio State pediatric dental faculty sparked Amini’s career. “Their passion for teaching and dedication to improving children’s oral health was inspiring. Now, I share my knowledge by showing residents they can touch the lives of many children.”

Gregor William Anderson
Associate Professor, Department of History

Anderson spent thousands of hours teaching English as a second language overseas. Having to teach so many classes highlighted the importance of being thorough, thoughtful and disciplined in my preparation. The experience also encouraged him to develop a relatively informal, friendly and conversational teaching style.

Georgia Bishop ’91 PhD, Professor and Vice Chair, Department of Neuroscience

Bishop arrived at Ohio State in 1975 as a postdoctoral fellow to carry out cerebellar research. “However, I did teach first-year medical students as part of my faculty role.” Early reviews weren’t good, so she adapted. “My philosophy is do the best you can, but always be willing to listen to your audience and make appropriate adjustments.”

Eugenia Costa-Giomi
Professor of Music Education, School of Music

“Coming from a rigid system of education prevalent in my native Argentina, I have always been fascinated by the flexibility and participatory nature of education in the United States. Costa-Giomi says, “I want my own teaching to be flexible and participatory and to reflect the belief that there’s much that we, including me, do not know.”

Bartow J. Elmore
Assistant Professor, Department of History

Elmore originally took pre-med classes. “Medical doctors were healers, and I wanted to be one of them.” He learned about the power of humanities from a University of Virginia professor, who showed him how history was actively shaping the world.”

Ohio State pediatric dental faculty sparked Amini’s career. “Their passion for teaching and dedication to improving children’s oral health was inspiring. Now, I share my knowledge by showing residents they can touch the lives of many children.”
In early June 2018, the Board of Trustees ... approved the design of Fry Tower renovations. Simultaneously, the College of Dentistry just broke ground on a major project to renovate Postle Hall nearby.
Dr. Canise Bean Appointed to Ohio State Dental Board

June 2018

Two new members appointed to Dental Board

Gov. John Kasich recently appointed two new members to the Ohio State Dental Board, Dr. Faisal Quereshy, MD, DDS, FACS and Dr. Canise Bean, DMD, MPH.

Quereshy is an associate professor and residency program director at Case Western Reserve University School of Dental Medicine Department of Oral and Maxillofacial Surgery. He received his DDS from the State University of New York School of Dental Medicine and his MD from CWRU. He received his surgical specialty training at the residency program in Oral and Maxillofacial Surgery at the University Hospitals of Cleveland. He has served as a delegate to the Ohio Dental Association House of Delegates and has served on the ODA Dental Education and Licensure Committee.

Bean is a clinical professor at The Ohio State University College of Dentistry in the General Practice and Materials Science Division and is the director of the Office of Community Education and the OHIO Project (Oral Health Improvement through Outreach). She received her DDS from the University of Kentucky College of Dentistry and an MS in Public Health from Ohio State. Bean has served as a delegate to the Ohio Dental Association House of Delegates and on the ODA Council on Dental Care Programs and Dental Practice as well as on the ADA Council on Communications.

Canise Bean, DMD, MPH
